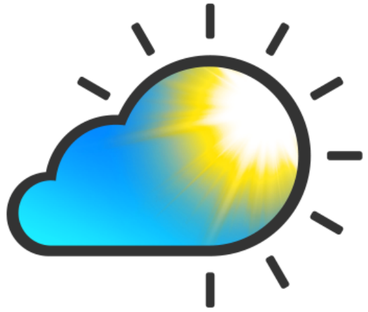
CATALOGUE

01 — Background
02 — Problem & Solution
03 — Why Cloud Computing
04 — Project Architecture
05 — Demo

Background

- Weather Changed Frequently
- Personal Preperation



Problem & Solution

?

Hard Deployment

Expensive Hardware Costs

Shutdown Suddenly

Big Data Store

!

Cloud Computing

Using Exsiting API

Kubenetes Cluster

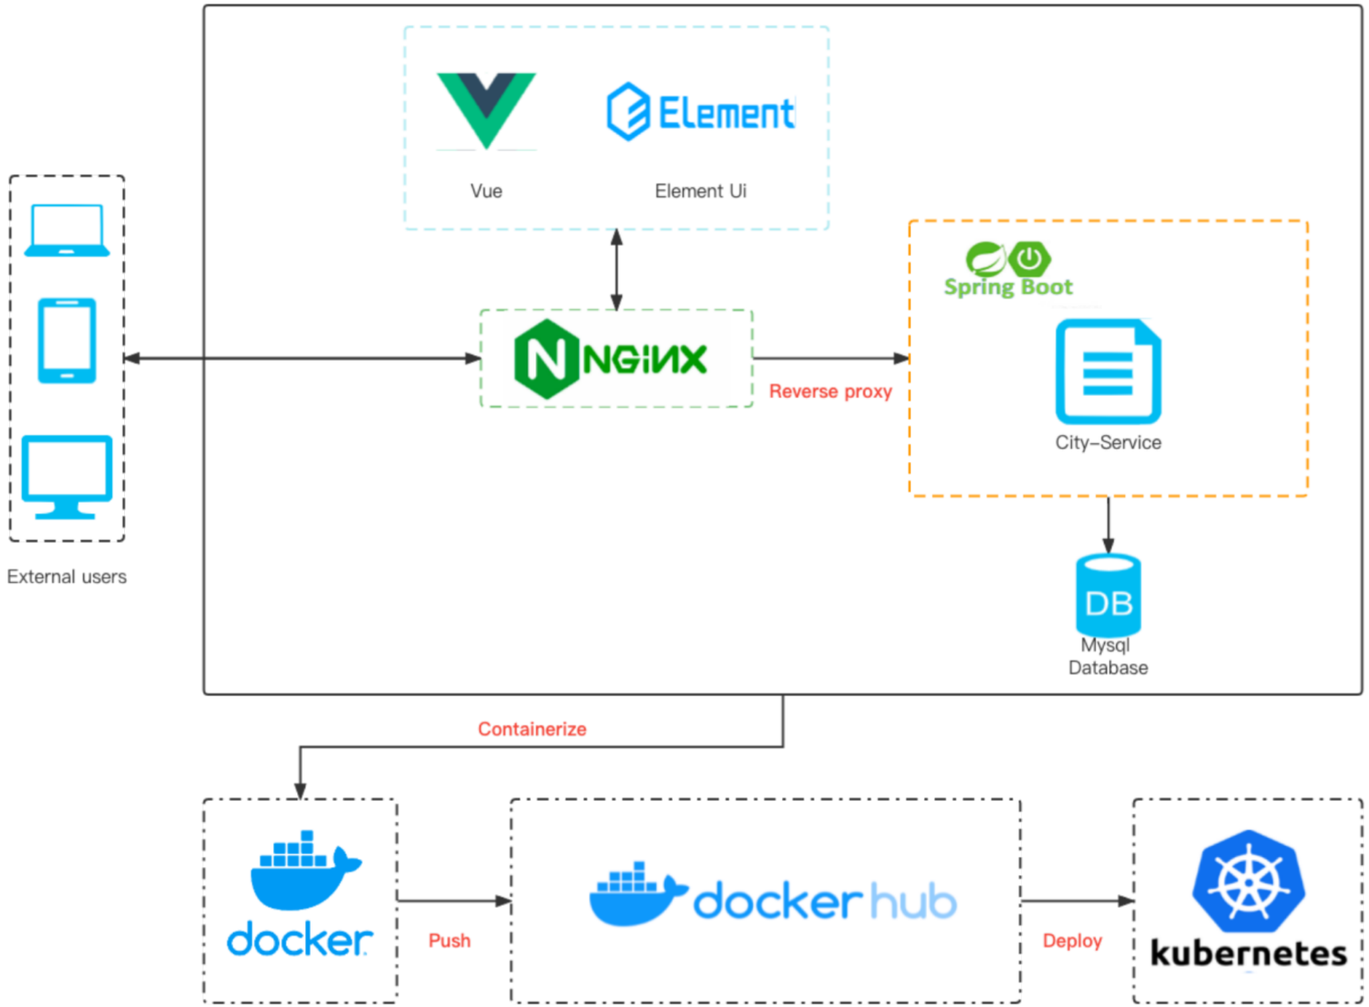
Why Cloud Computing

Reduced Investments
&
Proportional Costs

Increased Scalability

Increased Availability
&
Reliability

Project Architecture



Project Architecture
